Projects

LinkGuru: URL Classification Engine

Next.js, PostgreSQL, TypeScript, NextAuth.js+OAuth2.0

- Supports **70+ platforms in v1.0**, powered by approximately **50 regex patterns** for accurate link classification
- **No external APIs** called, ensuring complete control over extraction and parsing
- Secured routes through Next.js proxy middleware with JWT-based authentication and authorization
- Engineered **3 RESTful APIs and 6 Auth routes** for link classification, metadata scraping, CRUD operations, and dual-provider authentication in a Next.js + Supabase architecture

Imagify: AI-Based Image Generator

MERN Stack, JWT Authentication, ClipDrop API

- Engineered **4 RESTful APIs** for end-to-end AI image generation, integrating the ClipDrop API within a MERN architecture
- Implemented credit-based system with JWT authentication and bcrypt password hashing for secure usage tracking
- Achieved **258ms average response time**, **68% faster** than Google's 800ms TTFB benchmark
- Achieved **5.1s average response time** for AI image generation, dependent on external ClipDrop API processing latency

Climb Up the Hill: 2D Interactive Game

Python, Turtle Graphics, Tkinter

- Developed 2D interactive game where player navigates obstacles while climbing a hill using Python's Turtle library.
- Designed custom graphics and animations with **pixel-level collision detection** for precise gameplay mechanics.
- Integrated smooth keyboard-based controls and real-time game state management for responsive user experience.
- Implemented scoring system and difficulty progression to enhance player engagement.

Technical Skills

- **Languages:** Java, JavaScript, TypeScript, Python, SQL, C, HTML, CSS
- **Frameworks:** React.js, Next.js, Express.js
- **Databases, Cloud & DevOps:** MongoDB, PostgreSQL, AWS, Docker, Linux
- **Fundamentals:** Object-Oriented Programming, Operating Systems, Computer Networks, System Design Basics
- **Tools:** Git, GitHub, Postman, VS Code, Jupyter Notebook, Figma, Adobe Creative Suite, Canva
- **Design & Other:** UI/UX Design, Software Project Management, Graphic Design, 2D Game Development

Achievements

- Secured **1st position** in **Urja Hackathon 2024** by developing a static web-based Hostel Leave Management System under strict time and resource constraints.
- Achieved **5-star rating** in Java and **3-star rating** in Problem Solving on **HackerRank** - Handle: [pranavgg](#)
- Solved **300+ DSA problems** across **LeetCode** (Handle: [PranavShadow](#)), CodeChef, GeeksforGeeks.
- Certified in [AWS Academy Cloud Foundations](#)

Education

ABES Engineering College, Ghaziabad, Uttar Pradesh
Bachelor of Technology in Computer Science Engineering (CSE)

Expected Sept 2027

St. Fidelis College (ICSE), Lucknow, Uttar Pradesh
Intermediate Education

2022
