EXPERIENCE

Software Developer Intern (Summer Intern)

Jul 2026 - Aug 2026

Cloudcache Consulting Pvt. Ltd.

Bengaluru, KA (Remote)

- Served as a mentee to senior developers, received guidance on code structure, Git/GitHub workflows, and version control best practices.
- Worked with dynamic content handling, and collaborated with the team in an Agile workflow.

Software Developer Intern (Summer Intern)

May 2026 - Jun 2026

DM IT Solutions Pvt. Ltd.

Lucknow, UP (Remote)

- Worked with supporting feature modules using TypeScript and JavaScript-based frameworks.
- Worked on deployment, scaling, and networking concepts for personal projects. Assisted with RESTful API integration.

PROJECTS

LinkGuru: URL Classification Engine

Jun 2026

Tools: Next.js, PostgreSQL, TypeScript, NextAuth.js+OAuth2.0

- Supports **75+ platforms in v1.3**, powered by approximately **90 regex patterns** for accurate link classification
- **No external APIs** called, ensuring complete control over extraction and parsing
- Engineered **3 RESTful APIs and 6 Auth routes** for link classification, metadata scraping, CRUD operations, and dual-provider authentication in a Next.js + Supabase architecture

BloodVision: Blood Group Detection System

Jan 2025

Tools: Next.js, Flask, SQLite, Python, OpenCV, Docker

- **Predicts the ABO/Rh blood group** from images of a **slide agglutination test** using classical computer vision techniques.
- Deployed using **Docker Compose**, orchestrating separate **Flask backend and Next.js frontend containers** with internal networking.
- Engineered an **image-processing pipeline** for blood group detection, enabling image analysis, detection history management, and backend health monitoring.

Imagify: AI-Based Image Generator

Sep 2025

Tools: MERN Stack, JWT Authentication, ClipDrop API

- Engineered **4 RESTful APIs** for end-to-end AI image generation, integrating the ClipDrop API within a MERN architecture
- Achieved **258ms average response time**, **68% faster** than Google's 800ms TTFB benchmark
- Achieved **5.1s average response time** for AI image generation (dependency: External Clipdrop API)

SKILLS

- **Programming Languages:** Java, SQL, TypeScript, JavaScript, Python
- **Web Technologies:** React.js, Next.js, Node.js, Express.js, Bun, OAuth 2.0
- **Database Systems:** MongoDB, PostgreSQL, SQLite
- **Cloud & DevOps:** AWS (EC2, S3, IAM), CI/CD Pipeline, Docker, RESTful APIs
- **Developer Tools:** Git, Postman, Figma

CERTIFICATIONS

1. **AWS Academy Cloud Foundations**
AWS Academy · [Credly Verified Badge](#)

2. **Python Essentials**
Cisco · [Credly Verified Badge](#)

ACHIEVEMENTS

- Secured **1st position** in **Urja Hackathon 2024**
- Achieved **5-star rating** in Java and **3-star rating** in Problem Solving on **HackerRank** (Handle: [pranavgg](#))
- Solved **350+ DSA problems** across **LeetCode** (Handle: [PranavShadow](#)), CodeChef, GeeksforGeeks

EDUCATION

Dr. A. P. J. Abdul Kalam Technical University, ABESEC, B.Tech in C.S.E.
St. Fidelis College (CISCE), Intermediate in PCM with Computer Science

GPA: 8.29 Expected Jul 2027
Percent: 91 Jul 2022
